Junior Data Analyst | SQL, Python, KPI Analysis

Professional Profile

Junior Data Analyst with experience using Python and SQL for data cleaning, analysis, and visualization. Developed analytical projects in telecommunications, e-commerce, and A/B testing, generating insights to support data-driven decision-making. Background in administrative, commercial, and technical support environments, with strong analytical and problem-solving skills focused on translating data into practical business solutions.

Technical Skills:

- **Programming & Databases:** Python, SQL
- **Data Analysis:** EDA, KPI Analysis, A/B Testing, Descriptive Statistics, Hypothesis Testing
- **Tools:** Excel (Pivot Tables, Advanced Functions), Git, GitHub
- **Visualization:** Matplotlib, Dashboards
- **Languages:** Spanish (Native), English (Intermediate)

Data Analysis Projects

Telecommunications Analysis | Python, SQL

- Conducted EDA to evaluate operator performance
- Identified inefficiencies and optimization opportunities

A/B Testing – E-commerce | Python

- Assessed the impact of a recommendation system on conversion rates
- Compared control vs. test groups using funnel analysis

SQL Analysis – Book Database | SQL

- Built queries to analyze user behavior
- Generated key metrics for product decisions

Vehicle Analysis | Python

- Explored relationships between price, year, and model using EDA
- Developed interactive visualizations and a web app for data exploration

Work Experience

Project Coordinator – Public Management

Municipality of Toledo, Norte de Santander, Colombia | 02/2022 – 12/2023

- Structured and analyzed administrative and social data in Excel, supporting transition processes, accountability, and public policy design
- Designed and analyzed social surveys, producing descriptive statistics and dashboards for municipal decision-making

Technical Support Specialist / Technical Advisor

Sonda de Colombia / Drypers Andina S.A. – Bogotá, Colombia | 11/2015 – 07/2019

- Automated and structured technology asset inventories in Excel, improving control and traceability
- Generated operational reports for KPI monitoring and decision support
- Analyzed technical incidents to identify patterns and optimize support processes

Commercial Supervisor / Quality Supervisor

Grupo Éxito / Telmex Hogar Colombia – Bogotá, Colombia | 04/2003 – 03/2012

- Analyzed commercial and quality performance indicators (KPIs), supporting continuous improvement
- Produced reports for strategic decision-making
- Evaluated team productivity through metrics, identifying improvement opportunities

Education

Data Analyst Certificate (SQL, Python, EDA, A/B Testing)

TripleTen | 2026

Public Administration | Specialist in Public Administrator

Escuela Superior de Administración Pública (ESAP) – Bogotá, Colombia | 2019 – 2021
