PROFESSIONAL SUMMARY

Data Analyst with a background in technology, operations, and information management. Experienced in using Python, SQL, statistical analysis, and data visualization to investigate business questions, identify operational patterns, and translate data into actionable insights. Hands-on experience with Python, Pandas, PostgreSQL, statistical testing, EDA, A/B testing, Tableau, Power BI, and Excel.

TECHNICAL SKILLS

Analytics: EDA · Descriptive Statistics · Hypothesis Testing · A/B Testing · Cohort Analysis · Risk Analysis

Programming & Databases: Python · Pandas · SQL · PostgreSQL · SQLAlchemy · SciPy

Visualization: Tableau · Power BI · Excel · Matplotlib · Seaborn · Data Storytelling

Tools: Git · GitHub · Jupyter Notebook

Languages: Spanish — Native · English — B1 (Intermediate)

SELECTED PROJECTS

Hotel Cancellation & Revenue Loss Analysis

Python · Pandas · SQL · PostgreSQL · SQLAlchemy

- Analyzed 119,390 hotel booking records, identifying €16.7M in revenue losses associated with a 37% cancellation rate.
- Found that 53.7% of cancellation-related losses occurred during high-demand periods, with ADR reaching approximately €125/night.
- Identified a high-risk customer segment based on customer type, OTA channel, lead time, deposit status, and previous cancellations, including a 94% repeat-cancellation rate within the identified profile.
- Developed a business action plan projecting a potential €3.2M revenue recovery opportunity through mandatory deposits and targeted retention strategies.

Telecommunications Operations Analysis

Python · Pandas · Tableau · Statistical Analysis

- Analyzed 53,902 call records from 732 customers to identify operational inefficiencies across contact channels.
- Identified a significant gap between outbound failed calls (52.56%) and inbound failed calls (41.46%), statistically validated with $Z = 21.4$, $p < 0.001$.
- Recommended contact-schedule optimization and designed Tableau dashboard concepts for monitoring productivity and operational performance.

E-commerce A/B Testing & SQL Analysis

Python · Statistical Testing · SQL · PostgreSQL

- Evaluated an A/B test involving a recommendation system, applying hypothesis testing to assess differences in conversion performance.
- Used SQL to extract, join, aggregate, and analyze relational datasets to answer business-oriented analytical questions.

PROFESSIONAL EXPERIENCE

Information Management & BI Coordinator

Municipality of Toledo — Colombia · Feb 2022 – Dec 2023

- Led the collection, consolidation, validation, and analysis of administrative and social data to support evidence-based decision-making.
- Designed approximately 20 executive dashboards for daily and monthly monitoring of program KPIs.
- Structured and managed 5 large-scale digital surveys, processing and modeling data for territorial diagnostics and public reporting.
- Produced 10 executive presentations translating analytical findings into actionable information for government decision-makers.

Technical Data & IT Support Analyst

Sonda de Colombia / Drypers Andina S.A. — Bogotá, Colombia · Nov 2015 – Jul 2019

- Automated inventory and control processes for 350+ technology assets, improving data traceability and reducing database inconsistencies.
- Designed Excel dashboards using pivot tables and data models to monitor operational KPIs and service-level indicators.
- Consolidated and validated operational databases, identifying bottlenecks and generating continuous-improvement reports.

Commercial & Quality Analytics Supervisor

Grupo Éxito / Telmex Hogar Colombia — Bogotá, Colombia · Apr 2003 – Mar 2012

- Supervised and analyzed sales and quality KPIs for a team of 50 commercial advisors.
- Developed approximately 10 Excel dashboards for daily and monthly monitoring of productivity and quality.
- Consolidated and validated operational data and produced performance reports supporting continuous improvement.

EDUCATION & CERTIFICATION

- Data Analyst Certification — TripleTen | 2026 · SQL · Python · Power BI · EDA · A/B Testing
- Specialist in Public Management — Escuela Superior de Administración Pública (ESAP) | 2021
- Public Administrator — Escuela Superior de Administración Pública (ESAP) | 2019
